

You've done the research, validated your choice of technologies, and understand the where-to-from here process to realise a successful implementation. Now all you need is the evidence that the project vision will meet your business needs.

In other words, will this integration do what we want it to do, and what's going to be involved?

This workshop establishes the total effort required by all parties, and how long the project will take. We either work independently or with your team to set up the proof of value goals, scope, and inputs required to achieve them. We also establish a schedule of the workshops required and the acceptable deliverables.

To establish a standard of proof to green light the project, we choose some of your critical business needs as examples and build the integrations during the workshop.

“Adaptiv listened closely to our requirements over the four-day **adaptiv.verify** workshop. They quickly got a range of components up and running, showing us that Azure Integration would successfully work for us, and perform to our expectations.”

Micky Heath, Project Manager, Victoria University of Wellington

## What?

This 2 to 3 day workshop is designed to prove that the selected technologies and approach will deliver the concrete outcomes required by the business.

## When?

We recommend **adaptiv.verify** as the validation step after **adaptiv.assess**. Alternatively, if your teams are satisfied with your future technology selection, it can be held directly after **adaptiv.educate**.

## Who?

Development Leads, Chief Architects, IT Managers, Heads of Applications, CIOs, CDOs and CTOs.

## What will you walk away with?

By the end of this workshop, you will have confidence that the integration project will not only work effectively but deliver the business value expected.

## Cost:

\$4,500-\$9,000 plus gst.

## About Adaptiv Integration

Formed in 2010, we're a New Zealand owned and operated consulting partner invested in helping you to leverage and extend the value of your existing business applications, not selling you new ones.

We provide world-class integration and cloud technology consulting and execution services. With over a decade of experience in delivering small- and large-scale integration for the enterprise, we deliver clear and measurable value to our clients' bottom-line.

## Services

### adaptiv.**align**

A 3-hour strategic alignment meeting with organisational C-level stakeholders to introduce Adaptiv Integration solutions, services and capabilities.

### adaptiv.**educate**

A half-day technical product briefing to discuss available and recommended technologies.

### adaptiv.**assess**

A 3 to 5-day maturity workshop to establish the value and limitations of your current approach, facilitate discussions around definition roles and responsibilities, processes and future technology roadmaps.

### adaptiv.**verify**

A 2 to 3-day workshop is designed to prove that the selected technologies and approach will deliver the concrete outcomes required by the business.
